

A **voting platform** for all
residents of **Switzerland**

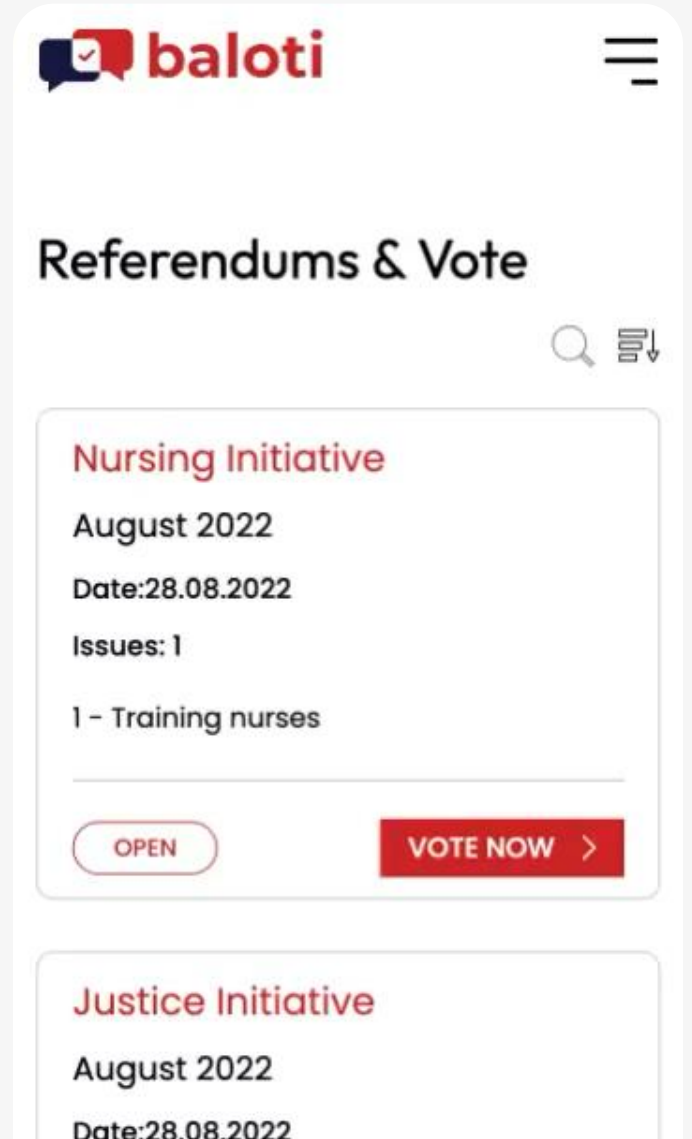

Problem

A large part of the **Swiss population** does **not have the right to vote**

Solution

A multilingual online voting platform

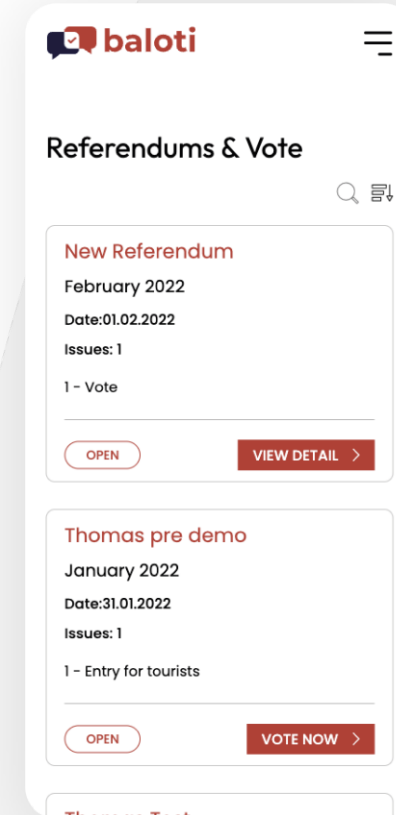

Features

- **Open & Secure**

Our solution is open source, using blockchain technology

- **Multilingual**

Making the voting experience more accessible

Impact

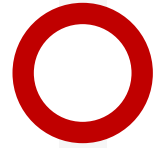

Making Switzerland more democratic

Roadmap

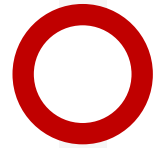

baloti 1.0

Pilot, generated 10K visitors

baloti 2.0, 2021/22

New UI/UX, responsive design, simpler voting procedure, all open source

Future

1. Municipalities use baloti to reach out to migrants
2. NGOs use baloti for internal, regional or global voting
